ANU breakthrough: Butterfly effect could boost solar cell efficiency

By Sophie Vorrath on 17 May 2017

A team of Australian National University researchers has taken inspiration from the humble butterfly wing to develop a nano-technology that could greatly improve the efficiency of solar cells.

from S. Benka, *Physics Today* (April 2002), pg 39, and adapted from A. Pasternak, Lawrence Livermore National Laboratory rep. no. UCRL-ID-140773.

$$\frac{dy}{dx} = y$$

Exponentials

$$y = e^x$$

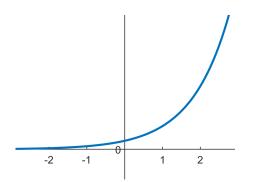

$$e^x = 1 + x + \frac{x^2}{2} + \frac{x^3}{6} + \dots \sum_{k=0}^{\infty} \frac{x^k}{k!}$$

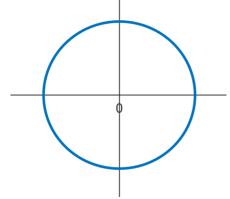

how fast you grow depends on how big you are...

Exponentials

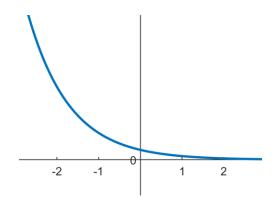

$$y = e^x$$

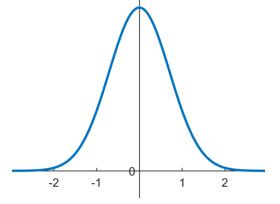

$$y = e^{ix} = \cos x + i\sin x$$

$$y = e^{-x}$$

$$y = e^{-x^2}$$

Revealed: the extent of job-swapping between public servants and fossil fuel lobbyists

No longer a government by free opinion, no longer a government by conviction and the vote of the majority, but a government by the opinion and the duress of small groups of dominant men.

– Woodrow Wilson, 28th President of the United States of America, The New Freedom, 1913

A lack of transparency results in distrust and a deep sense of insecurity.

– The 14th Dalai Lama

The truth shall set you free.

– John 8:32

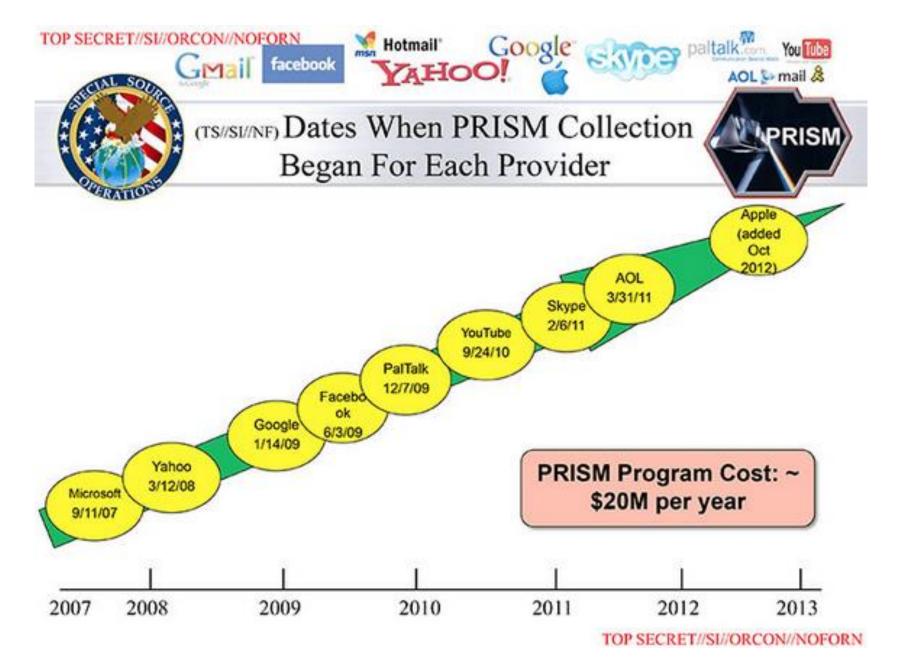

"in a time of universal deceit, telling the truth is a revolutionary act"

"The further a society drifts from truth, the more it will hate those who speak it"

Dark Chocolate May Help Prevent Some Types Of Cancer

Posted: 08/08/2016 9:05 am EDT Updated: 08/08/2016 4:59 pm EDT

Cocoa and dark chocolate contain compounds that may help prevent cancer by many ways, including preventing DNA damage, lowering inflammation, and inhibiting cell proliferation. Experimental evidence shows that cocoa can lower the risk of some types of cancer. Most importantly, some human trials show that cocoa can reduce activation of molecules that are involved in the development and progression of cancer.

Alcohol: Cancer risk 'increased' by drinking more than one glass of wine or pint of beer per day, experts warn
